

SUSAN GERADO

In Aug 06 I got a job two and a half days a week working at DAF otherwise known as the Drug and Alcohol Foundation as a Counsellor/Family Development worker, I see clients with addiction issues.

I have also been involved with setting up a new service offering a support group and 1-1 counselling to the family members/carers of people with addiction problems and the issues they face.

I still have my placement at Whipps Cross Hospital. I enjoy the change I get with bereavement counselling and the gratitude of this client group.

I have continued to do many courses including issues pertinent to my post ie, risk assessment, child protection, domestic violence, how addiction affects the family and will continue to do so.
